88.2 %

📁 Projects

Online Neural Network Classification Playground
- Created a neural network training web-app using **HTML,CSS, JS and Flask** that trains your CNN model for you.
- Designed the user interface such that an average developer without much knowledge of neural networks can use it to train their neural network with ease.

Flask Blog
- Created a live blogging application that can be used to create and post your blog and view other user's updates.
- Created using **: Flask, HTML/CSS and Bootstrap.**

Finding-Torry
- Created a discord bot that finds torrent **magnet links** for their query and gets rid of the issue of all the annoying ads and potential viruses on websites
- Made with web scrapping using **Beautiful Soup in Python**
- Hosted to work 24/7 using Google Cloud.

⚛ Skills
